PerFORM (DLA)

STANDARD FORM 33 (Rev. 9-97)
Prescribed by GSA
FAR (48 CFR) 53.214(c)

The purpose of this effort is to provide worldwide support for various F404 Engine National Stock Numbers (NSNs).

NSNs identified under this solicitation are listed at Attachment 1. Offerors may propose on all or as many NSN's as possible. While it is not foreseen that one offeror will propose on all NSNs, offers will be evaluated on the basis of advantages and disadvantages to the Government that might result from making numerous awards. For the purpose of evaluating offers, it is assumed that \$500 would be the administrative cost to the Government of issuing and administering each contract awarded under this solicitation. Individual awards will be evaluated on the basis of the items or combination of items that result in the lowest aggregate cost to the Government, including the assumed administrative cost.

This will be an Indefinite Delivery, Indefinite Quantity (IDIQ) Contract. This contract includes a 2 year base period and two 2-year option for a potential 6 year contract. The government reserves the right to break out any of the NSNs on an individual basis if determined to be in the best interest of the Government.

Any exceptions to this solicitation must be provided as a separate attachment to this solicitation.

This solicitation includes the following attachments:

Attachment 1 - NSN Listing/Pricing

Attachment 2 - Surge and Sustainment

Attachment 3 - Procurement Item Description (PID) - This attachment may be downloaded from the Defense Supply Center Richmond (DSCR)

website: <http://www.dcr.dla.mil/proc/VPV/vpvhome.htm>

Attachment 4 - Quality Matrix

Technical Data Packages may be downloaded from the following website:
http://www.dsccr.dla.mil/tdmd/mb_index.asp

PRICING: The contractor is to provide pricing for the base period and all option periods. Attachment 1 identifies the NSNs, unit of issue, minimum order quantity (MOQ), and estimated demand quantities for the base period and each option period. Contractors are encouraged to consider minimum order quantity when setting prices. Contractor are not required to honor orders for quantities below the Minimum Order Quantity (see Clause I-67). (NOTE: Estimated demand quantities are estimated amounts for administrative purposes only.) The estimated demand for the base period in attachment 1 include years 1 and 2 of the base period. All estimated demand quantities provided are based on the best projection available at the time of this solicitation and are subject to change. It is important to note that those NSNs with estimated demands of zero, DO NOT necessarily have zero demand. They may be items recently assigned to DSCR, items which historical data is otherwise incomplete or unavailable, or items for which the Government has no recurring demands and therefore cannot forecast a realistic estimate. For those items having a demand in the base period and/or option period of 0, pricing shall be based on the minimum ordering quantity (MOQ). Contractor is to provide economic price

quantities for all NSN's as well as any minimum ordering criteria. Prices shall be for FOB Origin. If adequate competition does not exist, the Government reserves the right to request cost or pricing data. Contractor pricing is to be provided on the Attachment 1 spreadsheet and the contractor is required to submit pricing proposal electronically in an Excel spreadsheet format along with the hardcopy.

TRANSPORTATION: FOB is Origin. Exception to FOB must be noted and be on an all or none basis for the NSN's the offeror is proposing. The contractor shall consolidate shipments from the same source to the same destination whenever possible without delay in the established delivery date unless otherwise pre-approved.

DELIVERY shall be to Defense Logistic Agency (DLA) distribution depots as designated on each DO. The contractor shall ship ordered items on or before the required contract delivery date specified in the DO. The required delivery date for each NSN is indicated in Attachment 1. Delivery Orders (DO) will be issued to the contractor through the Paperless Ordering Placement System (POPs). Manual delivery orders may be issued on an exception basis. The contractor shall interface with DoD Information Systems in an Electronic Commerce/Electronic Data Interchange (EC/EDI) environment in accordance with Clause 52.211-9G33 (POPs-Computer Compatibility).

SURGE AND SUSTAINMENT: Surge and Sustainment NSNs are identified in Attachment 2. Surge and Sustainment requirements are outlined in clauses 52.217-9G25 (I92K), 52.217-9006 (I89F), Provision 52.217-9G26 (L59DA) and 52,217-9G27 (M19CA). The attachment identifies the individual quantity requirements for each month as well as the total six-month requirement per NSN. 'Surge Support' is one of the evaluation factors; therefore offerors are required to comply with the specific clauses/provisions.

CLIN 6000 - Surge and Sustainment Requirement. NOTICE TO OFFERORS: Clin 6000 is the surge quantity that may be ordered by the Government in a military contingency. The Government is not obligated to order any of the surge quantities and the contractor should not ship such quantities without receipt of an order clearly designated for surge quantities. The offeror must specify the percentage of price increase for surge quantities or state 'none'. If the offeror fails to do so, the offeror will be evaluated with no additional charge for surge quantities.

OFFERORS SHALL INPUT PRICES FOR SURGE SUPPORT IN ATTACHMENT 1

CLIN 6001 - Capability Assessment: Cost, if any, that the contractor would incur in complying with the requirement to conduct a surge validation plan. If none, state 'none'. Reference Clause 52.217-9G25 (I92K) and Provision 52.217-9G26 (L59DA).
\$_____.

CLIN 6002 - Investment Costs: Investment costs, if any, to execute the surge plan otherwise state 'none'. Reference Clauses 52.217-9006 (I89F) and Provision 52.217-9G26 (L59DA).
\$_____.

QUALITY: The contractor shall establish, implement, document and maintain a quality system that ensures conformance to all contractual requirements and meets the requirements of ISO 9001:2000. However, the contractor may propose an equivalent quality system model. The requirements of ISO 9001:2000 shall govern the requirements for quality. If the contractor chooses to propose an equivalent quality model, the clause in Sections E5 - 52.246-11 - Higher Level Quality Requirements must be completed. Applicable Quality Assurance Provisions (QAPs) pertaining to each NSN are shown in Attachment 4, Quality Matrix.

TECHNICAL DATA PACKAGES: Items shall be manufactured in accordance with Government technical data packages and drawings. The contractor may obtain technical data packages using the following website:
http://www.dscr.dla.mil/tdmd/mb_index.asp. Contractors must have a membership number to access technical data. Contractors must follow the instructions provided on the website to obtain a membership number and technical data.

The Contractor is responsible for notifying the Government if the drawings or technical data is different from the information cited in the Acquisition Item Description/Product Item Description (AID/PID). Attachment 3 includes item descriptions obtained from the Contract Technical Data File (CTDF).

CLIN 9907 - FIRST ARTICLE: NSNs with First Article requirements are identified in Attachments 1 and 4. First Article requirements are outlined in notice 9-3Alt (B10), 9-5 (B12), clauses 52.209-3 (I28), 52.209-4 (I29), Provision 52.209-9G03 (L6), 52.209-9G04 (L7) and 52.209-9G05 (M3). The attachment identifies the individual requirements for each NSN. CONTRACTOR PRICING FOR FIRST ARTICLE TESTING IS TO BE PROVIDED AT ATTACHMENT 1.

* Clause fill-ins:

E14 52.246-9G16 - Inspection/Acceptance will be at origin for all items EXCEPT NSN 6620-01-436-5661 in which Inspection/Acceptance will take place at destination.

F16 52.211-9G50 - See Attachment 1.

I67 52.216-19 - (a) Minimum order is as specified in Attachment 1.
(b) Maximum order is as specified in Attachment 1.

(b)(3). A series of order from the same ordering office within 15 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

I67A, 52.216-19 - FAR clause 52.216-19, above provides for a minimum delivery order quantity (See Attachment 1). Notwithstanding such minimum order amount, the minimum order quantity per delivery order shall be not less than the Quantity Unit Pack (QUP) quantity (manufacturer's standard

pack for items without an identified QUP) and all orders will be in multiples of the QUP.

I71 52.216-22, Indefinite Quantity: The minimum contract value is defined as the guaranteed monetary value of the aggregate orders issued during the base period only. The minimum will not guarantee orders for any particular item or group of items. The Government will not guarantee a minimum for the option periods. The Government will compute a different minimum for each contract awarded under this solicitation in accordance with the following formula:

10% of the aggregate extended dollar value of the minimum order quantity (MOQ) for the NSNs, computed as follows:

$0.1x ([NSN1 \text{ price} \times MOQ] + [NSN2 \text{ price} \times MOQ] + \text{etc})$

The maximum contract value is defined as follows:

150% of the aggregate of the extended dollar value of the estimated value of the base period.

The maximum order quantity per delivery order will be up to 150% of the Estimated Annual Demand (EAD) from the final option period.

POPS - COMPUTER COMPATIBILITY
DSCR (MAR 2001)

(a) In support of the Paperless Ordering Placement System (POPS), the awardee will be required to have a compatible computer system capable of accepting our offers and processing Electronic Data Interchange (EDI) transactions. The American National Standards Institute's (ANSI) X12 Standard will be utilized for formatting the EDI transactions. The EDI system must be available for on line processing not later than 30 days after date of award.

(b) The computer system must also be Year 2000 (Y2K) Compliant. Year 2000 compliant, used with respect to technology, means that the information technology accurately processes date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it.

(c) The following ANSI X12 transaction sets are currently sent, received, and processed by the Defense Supply Center Richmond:

850 Purchase/Delivery Order Transaction Set
856 Ship Notice/Manifest Transaction Set

(d) Awardee must be capable of sending, receiving, and processing the above ANSI X12 transaction sets and have an electronic mailbox on a DAASC certified Value Added Network (VAN). For 856 Ship Notice/Manifest Transaction Sets, the awardee will have the option of using the Web-856 application, if it becomes available.

(e) Information regarding EDI, ANSI X12 transactions, and DAASC approved VANs can be obtained from the DAAS web site by going to www.daas.dla.mil, then select SYSTEMS & SERVICES, next select EC/EDI, and lastly select DAASC's VAN LIST.

D4I 52.211-9G45 POFS-SPECIAL MARKING INSTRUCTIONS
DSCR (OCT 2001)

NOTICE FOR DIRECT VENDOR DELIVERIES: In addition to the requirements of paragraph 5.1.6.2., Markings of ASTM D3951, markings on exterior shipping containers will contain as a minimum the NSN, requisition number, and the contract delivery order number. These markings are to be applied through stenciling or other means, directly to the exterior shipping container or included in the body of the invoice/shipping document which will be permanently affixed to the exterior shipping container. Regardless of method used, all markings must be visible to receiving personnel. When the total number of containers going to the same destination exceeds either 250 pounds (excluding pallet) or a volume of 20 cubic feet, then palletization is required except for 55 gallon drums.

NOTICE FOR SHIPMENT TO DLA STOCK LOCATIONS: Shipments to DLA stock locations must be marked in accordance with MIL-STD-129N dated 15 May 97 and AIM BC 1 with the following exception: Marking, including barcoding, and fragile marking (if required), must be on the outside container and all intermediary containers down to the specified QUP. DSCR Clause 52.211-9G22 (Sec F) applies.

D4K 52.211-9G73 PACKAGING AND MARKING
REQUIREMENTS (JUL 2002) DSCR

(a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.

(b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:

Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.

OCONUS shipments
FMS shipments
Hazardous material, as cited in the AID or in the Quality Requirements Matrix.

(c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System. DLAI 4145.3 is available on the internet at:
www.dscc.dla.mil/downloads/packaging/dlai4145_3.pdf.

(d) All items shall be marked in accordance with MIL-STD-129. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129 and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will

be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

SECTION E

E3 52.246-2 INSPECTION OF SUPPLIES - FIXED
PRICE (AUG 1996)E5 52.246-11 HIGHER-LEVEL CONTRACT QUALITY
REQUIREMENT (FEB 1999)

The Contractor shall comply with the applicable higher-level contract quality requirement cited below, which is hereby incorporated into this contract:

ISO 9001 or ANSI/ASQC Q9001 when Quality Assurance Provision (QAP) 005, 006, 159, 189, 216, 222, V02, or V03 is included.

ISO 9002 or ANSI/ASQC Q9002 for any other QAPs.

DSCR NOTE to 52.246-11:

The higher-level standards referenced above shall apply unless the contractor indicates the proposal is based on a contractor's preferred quality system as identified below:

- [] Other recognized industry standard(s) (but non-ISO/ANSI/ASQC) that is equivalent to or better than applicable ISO/ANSI/ASQC standard indicated above.
Specify _____
- [] Other process control system that is equivalent to or better than the applicable ISO/ANSI/ASQC standard indicated above which has not previously been determined to be insufficient for the Government's purpose. This may include previously recognized MIL-I-45208 or MIL-Q-9858 systems which have been augmented to be equivalent to ISO 9002 or ISO 9001 respectively.
- [] An existing system modeled after
[] MIL-I-45208 or
[] MIL-Q-9858
and not previously determined insufficient for the Government's purpose.
THIS OPTION IS PERMITTED ONLY AS AN INTERIM MEASURE TO ALLOW CONTRACTORS TO TRANSITION TO ISO/ANSI/ASQC STANDARDS.

Third party certification/registration is not required nor will it be considered a substitute for the Government's right to audit/validate a contractor's quality system. ISO 9001 can be accepted for ISO 9002 requirements, however, the reverse does not apply.

MIL-STD-105 has been replaced by ANSI/ASQC Z1.4-1993, Sampling Procedure and Tables for Inspection by Attributes.

MIL-STD-45662A has been replaced by either ISO 10012-1, Quality Assurance Requirements for Measuring Equipment or ANSI/NCSL Z540-1, General Requirements for Calibration Laboratories and Measuring Equipment and Test Equipment.

I38 52.211-9000 GOVERNMENT SURPLUS MATERIAL
DLAD (APR 2002)

(Previous versions of this clause are considered obsolete.)

DSCR NOTE: For electronic quotes, if the information requested by this clause cannot be submitted with your offer, it must be submitted off-line to the contracting officer prior to the solicitation closing date.

Awards citing origin inspection that authorize the furnishing of surplus material will contain a Quality Assurance Provision (QAP) S01 in lieu of the QAP (if any) specified in this solicitation.

A copy of surplus QAP S01 is available on the DSCR Master Solicitation, Section 2, at <http://www.dscr.dla.mil/qap/qaps.htm>. DSCR (JUL 2002)

(a) Definition.

'Surplus material,' as used in this clause, means new, unused material that was purchased and accepted by the U.S. Government and subsequently sold by the Defense Reutilization and Marketing Service (DRMS), by contractors authorized by DRMS, or through another Federal Government surplus program. The terms 'surplus' and 'Government surplus' are used interchangeably in this clause.

(b) The Offeror agrees to complete this clause and provide supporting documentation as necessary to demonstrate that the surplus material being offered was previously owned by the Government and meets solicitation requirements. The Offeror must provide this information and any supporting documentation on or before the date that quotes/offers are due; or within the timeframe specified by the Contracting Officer, if additional documentation is requested after submission of the offer. Failure to provide the requested information and supporting documentation within the timeframe requested may result in rejection of the offer. Unless the solicitation states otherwise, Offerors of surplus material are authorized to open packages, inspect material, and reseal packages. Each time this is done, the Offeror's authorized representative or inspector must sign the packages where they were resealed and annotate the date of inspection.

(c) With respect to the surplus material being offered, the Offeror represents that:

(1) The material is new, unused, and not of

(d) The Offeror agrees that in the event of award and notwithstanding the provisions of the solicitation, inspection and acceptance of the surplus material will be performed at source or destination subject to all applicable provisions for source or destination inspection.

(e) The Offeror has attached or forwarded to the Contracting Officer one of the following, to demonstrate that the material being offered was previously owned by the Government (Offeror check which one applies):

☐ For national or local sales, conducted by sealed bid, spot bid or auction methods, a solicitation/Invitation For Bid and corresponding DRMS Form 1427, Notice of Award, Statement and Release Document.

☐ For DRMS Commercial Venture (CV) Sales, the shipment receipt/delivery pass document and invoices/receipts used by the original purchaser to resell the material.

☐ For DRMS Recycling Control Point (RCP) term sales, the statement of account or billing document.

☐ For property sold under the exchange or sale regulation, conducted by sealed bid, auction or retail methods, a solicitation/Invitation for Bid and corresponding DRMS Form 1427.

☐ When the above documents are not available, or if they do not identify the specific NSN being acquired, a copy or facsimile of all original package markings and data, including NSN, Commercial and Government Entity (CAGE) code and part number, and original contract number. (This information has already been provided in paragraph (c) (6) of this clause. ☐ Yes ☐ No.)

☐ When none of the above are available, other information to demonstrate that the offered material was previously owned by the Government. Describe and/or attach.

(f) This clause only applies to offers of Government surplus material. Offers of commercial surplus, manufacturer's overruns, residual inventory resulting from terminated Government contracts, and any other material that meets the technical requirements in the solicitation but was not previously owned by the Government will be evaluated in accordance with the provision at 52.217-9002.

(g) Offers of critical safety items must comply with the additional requirements in 52.211-9005.

(h) If requested by the Contracting Officer, the Offeror shall furnish sample units, in the number specified, to the Contracting Officer or to another

location specified by the Contracting Officer, within 10 days after the Contracting Officer's request. The samples will be furnished at no cost to the Government. All such samples not destroyed in evaluation will be returned at the Offeror's expense. The samples will be evaluated for form, fit, and function with subassembly, assembly, or equipment with which the items are to be used. End items furnished under any contract award to the Offeror furnishing the samples can include the returned samples, and all acceptable end items will have a configuration identical to the samples. If specific tests of the samples' performance are made by the Government, the Offeror will be furnished the results of such tests prior to a contract being entered into. In addition to any other inspection examinations and tests required by the contract, the performance of the end items will be required to be as good as that of the samples submitted insofar as specific performance tests have been made by the Government and the results thereof furnished to the Offeror.

(i) In the event of award, the Contractor will be responsible for providing material that is in full compliance with all requirements in the contract or order, whether or not the Contractor has possession of applicable drawings or specifications, and despite the fact that the Government is unable to conduct in-process inspection. The Contractor's responsibility to perform is not diminished by compliance with the requirement to demonstrate that the offered material was previously owned by the Government. The material to be furnished must meet the requirements of the current contract or order, whether or not the material met Government requirements in existence at the time the material was initially manufactured or sold to the Government. The Government has the right to cancel any resulting purchase order or terminate any resulting contract for default if unacceptable material is tendered.

(j) If higher level quality requirements apply to the material being acquired, those requirements do not apply to surplus material furnished under this contract.

I91 52.217-9G08 OPTION TO EXTEND THE TERM OF THE CONTRACT - SUPPLIES DSCR (JUL 2000)

(b) THE OFFEROR AGREES TO FURNISH DURING THE OPTION PERIOD THOSE ITEMS CITED IN THE SCHEDULE AT UNIT PRICES AS INDICATED BELOW:

CAUTION: Failure to indicate one of the following may result in rejection of your offer.

- [] Option unit prices are the same as the unit prices offered for the basic contract, or
- [] Option period unit prices are as indicated in the schedule.

I92BA 52.217-9G15 FLEXIBLE OPTIONS DSCR (NOV 1996)

(a) This solicitation is for an indefinite quantity with a guaranteed minimum for two years, the base period It also includes 2 options for one year each.

(c) To exercise this right, the Government will provide written notice of its intent to exercise the option any time after having ordered 85% of the stated maximum or within thirty days of the effective date of any delivery order that reaches the stated maximum quantity.

I92X 52.217-9G25 SURGE & SUSTAINMENT REQUIREMENT DSCR (JUN 2001)

(a) Definitions. As used in this clause-

(1) 'Surge and Sustainment (S&S) Capability' means the ability of the contractor and base suppliers to meet increased quantity/accelerated delivery requirements, using production and supplier base capabilities, in support of a broad spectrum of possible Department of Defense contingencies. This capability includes both the ability to ramp-up to meet early requirements (i.e., surge), as well as to sustain an increased production and delivery pace throughout the contingency(ies) (i.e., sustainment). The spectrum of possible contingencies includes major theatre warfare and smaller-scale contingency operations.

(2) 'Surge and Sustainment (S&S) Quantity' means the quantity beyond peacetime level requirements necessary to support contingency operations. The quantity and required delivery are identified on an NSN basis, representing that needed to support two separate contingency operations for a specified time period, generally a year unless otherwise specified in the schedule.

(b) Scope of Requirement. The Contractor agrees to maintain the capability to produce and deliver the quantity of supplies or services identified in the schedule as the S&S requirement throughout the life of the contract. This capability shall be maintained in addition to peacetime level requirements and other existing Government contracts.

(1) Notification of S&S Capability Changes. Changes that negatively impact S&S capability shall be reported in writing to the Contracting Officer within ten working days after the contractor becomes aware of such impact. Such notification shall include the Contractor's proposed corrective action plan.

(2) Changes and Additions. The Government reserves the right to revise, reassess, or update S&S requirements during the life of the contract.

(3) Agreement to Participate in S&S Validation/Testing. By submission of an offer for the S&S requirement, the contractor agrees to participate in S&S testing as required by the Government to validate the S&S capability. Testing/validation may include, but not be limited to, participation in live exercises, participation in Commander-in-Chiefs or Joint Chiefs of Staff exercises approved in the DLA Joint Training Plan, paper exercises, simulations, or command post exercises. The Government reserves the right to require tests using other methodologies when deemed appropriate.

(c) Ordering. Any S&S designated supplies or services to be furnished under this contract will be ordered in accordance with the ordering clause by issuance of delivery orders or task orders specifically identified as 'S&S Orders.'

(1) Effective Date for S&S Capability. Orders for the S&S quantity may be issued immediately after award unless the contractor has identified during negotiations, and the Government has approved, an alternate date for the contractor to attain the required S&S capability. The contractor's capability assessment shall clearly support the alternate date for attaining full S&S capability.

(2) Limitations. The order limitations clause applicable to the peacetime level requirements shall not apply to the S&S quantity to the extent that it conflicts with the quantity necessary to support a contingency. The Government reserves the right to order less than the total phased quantity specified for each S&S delivery. The Government may order in excess of each phased delivery quantity provided the contractor shall accept the excess quantity. Multiple orders for the same NSN may be issued to support multiple contingencies provided the total quantity ordered does not exceed the total S&S quantity for all phases of delivery.

(3) Contract Ceiling. The Government reserves the right to increase the contract ceiling as necessary to accommodate the S&S quantity to the extent such quantity was not considered when establishing the initial contract ceiling.

(d) Options to Extend the Contract Term: The Government may consider the contractor's performance of the S&S requirements in determining whether exercise of the option is the most advantageous method of meeting the Government's needs. Factors that may be considered include maintenance of the S&S capability; results of validation/testing; performance during an actual contingency; and other pertinent information related to the S&S requirement.

I121A 52.222-21 PROHIBITION OF SEGREGATED FACILITIES (FEB 1999)

(a) 'Segregated facilities,' as used in this clause, means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees, that are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, sex, or national origin because of written or oral policies, or employee custom. The term does not include separate or single-user rest rooms and necessary dressing or sleeping areas, provided to assure privacy between the sexes.

(b) The Contractor agrees that it does not and will not maintain or provide for its employees any segregated facilities at any of its establishments, and that it does not and will not permit its employees to perform their services at any location under its control where segregated facilities are maintained. The Contractor agrees that a breach of this clause is a violation of the Equal Opportunity clause in this contract.

The following deviation is applicable to FAR Clause 52.232-25:

Paragraphs (a) (3) (iv) and (v) are deleted and replaced with the following:

(a) (3) (iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed. Unit of measure is not required for Electronic commerce (EC/EDI) contract.

(a) (3) (v) Shipping and payment terms (e.g., shipment number and date of shipment, prompt payment discount terms), except for POPS contract. Bill of Lading number and weight of shipment will be shown for shipments on Government bills of lading.

In addition to the above deviation, the following clarification is added to ensure proper payment of invoice:

(a) (3) (iv) The invoice price shall correspond to the unit of issue price specified in the contract. For example, if 12 each (EA) equals 1 box (BX) and the contract specifies EA, but you sell the item by BX, the invoice must be submitted on an EA price basis.

I199 52.233-1 DISPUTES (JUL 2002)

DSCR NOTE:

DSCR has in place a process to mediate two types of contract disputes: (1) contract claims filed pursuant to the Contract Disputes Act of 1978, as amended, 41 U.S.C. 601-613, (CDA), prior to issuance of a final decision by the contracting officer, that arise as a result of either a contractor or government claim, except for proposed Terminations for Default, and (2) other contract disputes, resulting from an issue in controversy, that the contracting officer determines suitable for mediation. Mediation involves a neutral, called a mediator, who assists both parties as they try to resolve their dispute voluntarily and produce a solution that is acceptable and beneficial to both. After unassisted negotiations over an issue in controversy have proven ineffective in either situation, the contracting officer will contact the contractor seeking to resolve the dispute through mediation. In either situation, a contractor's decision not to engage in mediation shall be conveyed in writing to the contracting officer.

Mediation undertaken pursuant to this process does not waive the statutory time limitations of the CDA, within which a contracting officer must issue a final decision on a claim filed pursuant to the CDA, as expressed in FAR Clause 52.233-1, Disputes, paragraph (e). If mediation is unsuccessful, the parties retain their existing rights under the CDA. (99140)

K2 52.203-2 CERTIFICATE OF INDEPENDENT PRICE
DETERMINATION (APR 1985)

(a) The offeror certifies that:

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to (i) those prices, (ii) the intention to submit an offer, or (iii) the methods or factors used to calculate prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by signatory that the signatory --

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to Subparagraphs (a)(1) through (a)(3) above; or

(2)(i) has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to Subparagraphs (a)(1) through (a)(3) above . . .

(Insert below the full name of person(s) in the offeror's organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror's organization);

NAME: _____

TITLE: _____

(ii) As an authorized agent, does certify that the principals named in Subdivision (b)(2)(i) above have not participated, and will not participate, in any action contrary to Subparagraphs (a)(1) through (a)(3) above; and

(iii) As an agent, has not personally participated, and will not participate in any action contrary to Subparagraphs (a)(1) through (a)(3) above.

(c) If the offer deletes or modifies Subparagraph (b)(2) above, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

K4A 52.203-11

CERTIFICATION AND DISCLOSURE
REGARDING PAYMENTS TO INFLUENCE
CERTAIN FEDERAL TRANSACTIONS
(APR 1991)

(a) The definitions and prohibitions contained in the clause, at FAR 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, included in this solicitation, are hereby incorporated by reference in paragraph (b) of this certification.

(b) The offeror, by signing its offer, hereby certifies to the best of his or her knowledge and belief that on or after December 23, 1989, --

(1) No Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with the awarding of any Federal contract, the making of any Federal Grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan, or cooperative agreement;

(2) If any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with this solicitation, the offeror shall complete and submit, with its offer, OMB standard form LLL, Disclosure of Lobbying Activities, to the Contracting Officer; and

(3) He or she will include the language of this certification in all subcontract awards at any tier and require that all recipients of subcontract awards in excess of \$100,000 shall certify and disclose accordingly.

(c) Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by section 1352, title 31, United States Code. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure form to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.

ELECTRONIC ORDER TRANSMISSION
INDEFINITE DELIVERY CONTRACT
DSCR (MAR 2001)

(a) Offerors are advised that electronic order transmission is available for use via the Paperless Order Placement System (POPS) application. If the successful offeror chooses to use Electronic Data Interchange (EDI), they will be required to have a compatible computer system capable of accepting our offers and processing EDI transactions. The American National Standards Institute's (ANSI) X12 Standard will be utilized for formatting the EDI transactions. The EDI system must be available for on line processing not later than 30 days after award.

(b) The computer system must also be Year 2000 (Y2K) Compliant. Year 2000 compliant, used with respect to technology, means that the information technology accurately processes date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it.

(c) The following ANSI X12 transaction sets are currently sent, received, and processed by the Defense Supply Center Richmond:

850 Purchase/Delivery Order Transaction Set
856 Ship Notice/Manifest Transaction Set

(d) Offerors must be capable of sending, receiving, and processing the above ANSI X12 transaction sets and have an electronic mailbox on a DAASC certified Value Added Network (VAN). For 856 Ship Notice/Manifest Transaction Sets the awardee will have the option of using the Web-856 application, if it becomes available.

(e) Information regarding EDI, ANSI X12 transactions, and DAASC approved VANS can be obtained from the DAAS web site by going to www.daas.dla.mil, then select SYSTEMS & SERVICES, next select EC/EDI, and lastly select DAASC's VAN LIST.

(f) Specifics of the POPS System can be obtained from:

DOCUMENTATION REQUIREMENTS
DSCR (SEP 2002)**

(a) If an item other than that cited in the Procurement Identification Description (PID) is offered under provision 52.217-9002, (Sec L), of this solicitation, this provision specifies the Government's requirements for additional documentation needed to evaluate whether the offered item meets the requirements for the Critical Application Item (CAI) and/or Flight Safety Critical Application Part (FSCAP) identified in the PID. The guidance herein is also intended to assist offerors in determining what documentation is needed to insure an adequate and timely evaluation of the source manufacturing the item - namely, a source approval request (SAR). The offeror shall determine which category applies. The specified documentation for that category, as well as that specified for all categories at subparagraph (b), shall be submitted in support of the manufacturing process.

(1) CATEGORY I - Manufacturer of the same item for the Original Equipment Manufacturer (OEM) or for the Department of Defense (DoD).

(2) CATEGORY II - Manufacturer of a similar item for the OEM or DoD. (A similar item is defined as an item whose design, application, operating parameters, material, and manufacturing processes are similar to those of the item for which source approval is sought.)

(3) CATEGORY III - New manufacturer. The exact or similar item has not been previously provided to the OEM or DoD

(b) Requirements for all CATEGORIES in addition to the below checklist.

(1) Documentation shall be provided stating if the company seeking approval is a nonmanufacturing source or the actual manufacturer. If the company seeking approval is a nonmanufacturing source, the required information shall also be submitted on the manufacturer.

(2) Any SAR identified to Boeing Rights Guard must comply with the Boeing Rights Guard Agreement.

(c) The offeror shall check below the CATEGORY that applies and include this part of the provision, as well as the additional required documentation, in support of the source approval request.

CATEGORY I (same part) []
CATEGORY II (similar/equivalent part) []
CATEGORY III (new manufacturer) []

To determine the mandatory requirements to submit for CATEGORY I - III parts, the offeror must go to this website www.dscr.dla.mil/sarguide.doc.

L59DA 52.217-9G26 **SURGE & SUSTAINMENT CAPABILITY
ASSESSMENT DSCR (JUNE 2001)**

(a) Proposals submitted in response to this solicitation shall include a proposed approach to meeting the Surge & Sustainment (S&S) requirement identified in the schedule. The proposed approach shall include the initial ramp up (surge) and subsequent production and delivery (sustainment) of supplies to support simultaneous

contingencies. The contractor's proposed approach shall be supported by a production capability assessment, as an attachment to the proposal, containing, but not limited to, the following areas:

(1) The contractor's methodology enabling visibility of supplier base resources on a continuing basis.

(2) Identify supplier base inventories, production capability, on-demand manufacturing and advanced technology capabilities, or any other means of support available to meet S&S requirements and, based on this identification, a description of S&S strategies for all items.

(3) Identify 'problem' items for which S&S cannot be easily met, proposed solutions for these items, and any significant investments (dollars or otherwise) needed to implement these solutions, including investments by the Government.

(4) Describe access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements.

(5) The contractor's agreements with suppliers and service providers that reflect access to S&S resources.

(6) Clearly identify any significant investments (dollars or otherwise) required to resolve the problem areas identified under subparagraph (3), or other subparagraphs above, needed to develop S&S capability, including, but not limited to, the following information:

- (i) Why the investment is needed;
- (ii) what will be purchased with the investment;
- (iii) basis for the investment cost;
- (iv) the S&S capability to be gained from the investment; and,
- (v) for investments needed to affect strategies, an analysis of what strategies were considered and why the proposed strategies are the most cost effective.

(7) If the S&S requirements can be easily met with current levels of production, the following information may be provided in lieu of the detailed assessment requested above:

- (i) The contractor's rationale for concluding the required S&S resources are readily available; and,
- (ii) the contractor's ability to meet the S&S requirements through access to these resources.
(Note: The commercial nature of an item, in and of itself, is not an adequate rationale for concluding the item is readily available. The information submitted shall include a description of access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements.)

L75B 52.233-9000 **AGENCY PROTESTS
DLAD (SEP 1999)**

Companies protesting this procurement may file a protest

- 1. with the contracting officer,

27

2. with the General Accounting Office, or
3. pursuant to Executive Order No. 12979, with the Agency for a decision by the Activity's Chief of the Contracting Office.

Protests filed with the agency should clearly state that they are an 'Agency Level Protests filed under Executive Order No. 12979.' (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

DSCR NOTE:

Executive Order 12979 encourages the use of Alternative Dispute Resolution in resolving Agency-level protests. Therefore, DSCR has in place a process to mediate Agency-level protests filed pursuant to Executive Order 12979. Mediation is a voluntary process where the parties meet with a third party neutral (the mediator) to discuss their positions and open a dialogue. The mediator does not make any decisions on the dispute, but rather helps the parties explore their concerns and possible avenues for solutions. Any mediation will occur at DSCR. A trained DSCR mediator who has not had previous personal involvement in the procurement will conduct the mediation. If resolution of the protest is not reached through the mediation process, the protest will be forwarded to the Chief of the Contracting Office for a written decision on the record. If an offeror wishes to file an Agency-level protest, but does not wish to engage in a mediation, the Agency-level protest should state that the protesting party does not wish to participate in a mediation and would like a decision on the written record.

L75BC 52.233-9001 DISPUTES: AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION DLAD (JUN 2001)

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal counsel (see DLA Directive 5145.1). Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here (). Alternate wording may be negotiated with the contracting officer.

SECTION M

M3 52.209-9G05 EVALUATION-FIRST ARTICLE APPROVAL DSCR (JAN 1996)

(a) Estimated costs of Government testing will be a factor in evaluation of offers to the extent that such costs are shown below:

ITEM GOVERNMENT TEST COST

See attachment 3

M3B 52.211-9003 CONDITIONS FOR EVALUATION OF OFFERS OF GOVERNMENT SURPLUS MATERIAL DLAD (APR 2002)

(a) Definition.

'Surplus material,' as used in this provision, has the same meaning as in the clause at 52.211-9000, Government Surplus Material.

(b) The Agency will evaluate an offer of surplus material when the Contracting Officer determines the Offeror is otherwise in line for award, after adding the cost of evaluation (\$200 for internal evaluation and, if applicable, an additional \$500 for each Engineering Support Activity (ESA) evaluation, plus any additional fees required for special testing and/or inspection).

(c) When an offer is for a quantity less than the solicited quantity, the contracting officer will consider the \$500 cost of issuing and administering more than one award. The contracting officer will also consider the anticipated impact on the unit price of the remaining quantity, to determine the total cost to the Government.

M10F 52.215-9G05 AUTOMATED BEST VALUE SYSTEM
DSCR (JUL 2002)

field will identify the appropriate focal point. For those identified as 'DSCR,' send challenges to:

(a) The Automated Best Value System (ABVS) Score as an Element of Past Performance Evaluation.

(1) ABVS scores do not determine eligibility for award or technical acceptability. The Government shall use ABVS scores to compare past performance among offerors, not to make determinations of responsibility.

(2) To evaluate each offeror's past performance, DLA will assign an ABVS score to each offeror based on the offeror's past performance. ABVS scores for performance in each Federal Supply Class (FSC score) will be based on DLA consolidated performance history. An offeror may have multiple FSC scores but will have only one DLA score, which is a compilation of the offeror's FSC scores for all business conducted with DLA. These scores will be calculated monthly and remain in effect for a month. The ABVS score is a combination of an offeror's delivery and quality scores. The quality score reflects validated contractor caused product and packaging nonconformances during the rating period. For administrative purposes, the rating period excludes the most recent 30 days. The delivery score reflects all lines shown as delinquent during the rating period. For administrative purposes, the rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the contract delivery date. The 30 and 60 day offset periods are NOT grace periods.

(3) Business Systems Modernization.

(i) The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in August 2002.

(ii) Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs, which are not in the BSM test, ABVS will continue to work as it does today.

(iii) In order to determine if a NSN or FSC is included in this BSM test, go to the BSM Supplier Information Resource Center, <http://www.dla.mil/j-6/bsm/SIRC/SIRC.htm>. Awards not included in the ABVS performance data will be identified by contract numbers beginning with SPXXXX or SPEXXX in lieu of SP0XXX (this does not apply to orders issued against non-DLA Basic Ordering Agreements or contracts).

(iv) This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Vendor Information Center at <http://131.70.202.70/j%2D6/bsm/test/vic.htm>.

(4) DSCR will make negative quality and delivery data reflected in the ABVS score available to offerors by the 15th day of the month via the ABVS Website. The offeror's negative performance data will be posted before it is reflected in the ABVS score (Preview Period), to give offerors an opportunity to review and verify data. An offeror must challenge any negative data within the Preview Period to assure corrections are posted before calculation of the score. Offerors must submit challenges and substantiating evidence (e.g. invoices, DD Form 250s, modifications) to the ABVS Administrator. The 'Center'

8000 Jefferson-Davis Highway
Richmond, VA 23297-5516

Telephone (804) 279-6881
FAX (804) 279-5042

(5) Though offerors may challenge negative data at any time, it is to the offeror's advantage to challenge negative data during the Preview Period before it has an opportunity to be reflected in the ABVS score. Accordingly, an offeror should review performance data on a monthly basis at a minimum. When a challenge is received, the ABVS score will be flagged. The flag will remain until the challenge is resolved. If an offer under evaluation involves a challenged score, then the Contracting Officer will consider the nature of the challenged data and its relevance to the acquisition as part of the award decision. The ABVS Administrator will adjust the ABVS score if the Administrator upholds an offeror's challenge. Scores created in the update cycle immediately following the determination will reflect the adjustment.

(6) When there is a discrepancy between the offeror's challenged data and the Government's data, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in the source selection process, and may make an award decision despite the existence of an unresolved challenge.

(b) Using the ABVS score for evaluation.

(1) The contracting officer will first evaluate offers using the FSC score for the solicited FSC in effect at the time offers are evaluated. The contracting officer will use an offeror's DLA score to evaluate an offeror without an FSC score for that particular FSC. The contracting officer may consider the volume of business on which the FSC score is based as a measure of confidence in the score's indication of performance risk. The contracting officer may choose to use the DLA score if he or she lacks confidence in the FSC score. The contracting officer also may use the DLA score if the FSC scores among offerors are relatively equal. An offeror with no performance history will not be evaluated favorably or unfavorably and will be assigned a '999.9' in the ABVS. A '999.9' is used to designate those instances wherein the offeror has no past performance history, has no history for the particular FSC or has no history for the timeframe being rated.

(2) Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

M10G 52.215-9G06 EVALUATION AND AWARD
DSCR (FEB 2000)

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

[] significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.

- ☒ approximately equal to cost or price; or
- ☐ significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application
Delivery schedule and current inventory status
Historical delivery or quality problems
Concerns over limited supply sources and industrial base
Benefits from obtaining new sources

(c) COST OR PRICE. The Government will evaluate the offered cost or price for cost realism, as defined in FAR 15.401, and reasonableness. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores will be weighed most heavily because of their relevance to DSCR awards. Quality history and delivery schedule compliance will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

- ☐ Socioeconomic Support (52.215-9003)
- ☐ Other (specify):

(e) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

(i) Offerors may submit with their offer information on past and current Federal (non-DSCR), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(ii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when

evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iii) In addition to the information above, DSCR will use the Automated Best Value System (ABVS) to evaluate quality and past performance on DLA awards (see 52.215-9G05).

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably or unfavorably.

M12 52.216-9G09 EVALUATION - INDEFINITE QUANTITY CONTRACT DSCR (NOV 1996)

Offers will be evaluated on the basis of the estimated annual quantity. If quantity breaks are offered with various prices, the highest price offered will be used for evaluation.

If line items for both stock and DVD are included in the schedule offers will be evaluated based on the total extended price for the stock and DVD line items.

M15 52.217-5 EVALUATION OF OPTIONS (JUL 1990)

M18 52.217-9G11 EVALUATION OF OPTION TO EXTEND THE TERM OF THE CONTRACT - SUPPLIES DSCR (JAN 1996)

The evaluation of options to extend the term of the contract as required by either FAR Clause 52.217-5 (Section M) or 52.212-2 will be based on the highest possible option price offered for each option as specified in DSCR Clause 52.217-9G08 (Section I).

M19CA 52.217-9G27 SURGE & SUSTAINMENT EVALUATION - MINIMUM REQUIREMENT DSCR (JUNE 2001)

(a) Evaluation. The surge & sustainment (S&S) requirement identified in the schedule represents a minimum requirement for award; therefore, offerors that fail to offer for the S&S requirement or submit proposals that are deficient may be rejected. The S&S capability assessment specified in 52.217-9G26 will be evaluated to determine the offeror's ability to meet the increased quantity/accelerated delivery requirements identified in the schedule for S&S.

(b) Acceptable Standard. Acceptable proposals must:

- (1) describe a methodology which enables visibility of supplier base resources on a continuing basis;
- (2) identify supplier base inventories, production capability, on-demand manufacturing and advanced technology capabilities, or any other means of support available to meet S&S requirements and, based on this identification, provide a description of S&S strategies for all items;
- (3) identify problem items for which S&S cannot be easily met, propose solutions for these items, and identify any significant investments (dollars or otherwise) needed to implement these solutions;
- (4) describe access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements; and
- (5) provide information regarding agreements with subcontractors, suppliers and service providers, if applicable, that reflect access to S&S resources;
- (6) identify any significant investment (dollars or otherwise) under (3) or other subparagraphs above, needed to develop S&S capability, with the following information:

- (i) An explanation of why the investment is needed.
- (ii) A description of what items or materials will need to be purchased with the investment.
- (iii) Provide a justification/basis for the investment cost.
- (iv) Identify the S&S capability to be gained from the investment.

52.247-47

EVALUATION F.O.B. ORIGIN
(APR 1984)

(c) Acceptable Standard Commercial. The following standard shall apply in lieu of paragraph (b) for commercial items that are readily available and accessible in sufficient quantities to meet the S&S requirements. Adequate proposals shall:

(1) provide information to support the rationale for concluding that the S&S items are readily available;

(2) describe how access to these resources will provide the ability to meet S&S requirements; and

(3) identify a plan for coordinating distribution and transportation services for meeting S&S requirements

(d) Deficient Proposals. Proposal revisions to correct deficiencies in S&S capability may be addressed during negotiations with offerors determined within the competitive range.

(e) Price. Price(s) associated with S&S items will be evaluated for reasonableness and realism in accordance with proposal analysis techniques specified in FAR 15.404. The total evaluated price associated with a proposal will include S&S prices/costs only to the extent such prices/costs represent:

(1) the dollar amount that must be obligated or reserved at time of award to implement and or maintain the S&S capability and

(2) the dollar amount associated with a confirmed requirement to support an actual contingency.

(f) Materially Unbalanced Offers. The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract lines is significantly overstated or understated as indicated by application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that lack of balance poses an unacceptable risk to the Government.

M19D 252.225-7003 INFORMATION FOR DUTY-FREE ENTRY
EVALUATION DFARS (MAR 1998)

(a) Does the offeror propose to furnish --

(1) A domestic end product with nonqualifying country components for which the offeror requests duty-free entry; or

(2) A foreign end product consisting of end items, components, or material of foreign origin other than those for which duty-free entry is to be accorded pursuant to the Duty-Free Entry--Qualifying Country Supplies (End Products and Components) clause of this solicitation?

☐ YES ☐ NO

(b) If the answer in paragraph (a) is yes, answer the following questions:

(1) Are such foreign supplies now in the United States?

☐ YES ☐ NO

(2) Has the duty on such foreign supplies been paid?

☐ YES ☐ NO

(3) If the answer to paragraph (b) (2) is no, what amount is included in the offer to cover such duty?
